EDUCATION

Actualize Coding Bootcamp | Certificate in Full-Stack Web Development   June 2022 - Nov 2022
A four-month full-stack web development bootcamp. Core technologies included Ruby, Rails, JavaScript, and React.js. Special emphasis on API-driven development, version control with Git, professional tooling, team collaboration, and continual learning.

Hebrew Theological College | Bachelor of Arts in Computer and Information Science   Jan 2021 - Nov 2022

PROJECTS

Personal Website | Visit Website
Created a personal website to showcase my skills as a web developer, UX designer, and various projects. Developed using React, TypeScript, Swiper.js for the carousel, and Email.js for the contact form. The website features Framer Motion animations and is optimized for mobile screens. Protected by reCAPTCHA and deployed on Netlify.

Snake Game | View Game
Built a classic Snake game using React, featuring dynamic grid size, mobile touch/swipe support, and high score tracking with localStorage. Optimized for both desktop and mobile, deployed on Netlify for easy access.

EXPERIENCE

Trackmatic | Web Developer   Feb 2023 - Present
- Optimized backend processes and code to support front-end requirements, improving data processing speed and reduced load times.
- Added new features to the React front-end, making the platform more intuitive and improving the user experience for clients.
- Developed automated report generation in PDF and Excel formats using Node.js and Puppeteer, providing clients with easy-to-access, data-driven insights.
